Authorization for this examiner's amendment was given in a telephone interview with John Mulgrew on 9/26/03.

In claim 20 line 2 after "combining" insert --- nanoparticles ---.

At page 1 line 6 of the specification delete "pending" and insert --- US PAT 6555627 ---.

The following is an examiner's statement of reasons for allowance:

Walker '272 is the closest prior art but is limited to one piece balls and does not suggest solution blending or claim 24's high trans polybutadiene. The other references lack at least two of: 1) nanoparticles, 2) solution blending or 3) a second polybutadiene.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
